

DRIVER'S SEAT
YOU'RE IN CONTROL

FUNDAMENTALS OF CIVILIAN ARMOURED VEHICLES

Driving an armoured vehicle is not the same as driving an ordinary vehicle

This course provides drivers with an introduction to the basics of civilian armoured vehicles.

It is ideal for both new drivers as well as a refresher course for experienced drivers.

Upon completion of this course, drivers will have a strong understanding of the physical makeup of an armoured vehicle and how it is fundamentally different to a non-armoured vehicle.

This course is the first course of the Armoured Vehicle Competency Certification Program.

When	Self-paced Start immediately
Format	Online: (with a computer or smartphone)

Receive your certificate of competency

This is a competency based course. The student is required to:

- Progress through all the lectures in order
- View a minimum of 90% of the video content
- Complete all the questions in the graded assessment at the end of each lesson (where applicable).

Please note the student is also required to obtain a minimum 60% pass rate to achieve the basic Level 1 Competency.

When you have completed the assessment quizzes for this course, you will be awarded a certificate noting your level of competency .

This certification is credited towards your progress for overall certification under the Armoured Vehicle Competency Certification Program.

Duration of the course

The course consists of a number of video lectures.

- You are welcome to look through these at your pace.
- There are also a number of quizzes throughout the course to help you assess your knowledge and retention of the important information.
- Overall, the course should take you less than one hour to complete.

What do our Trainees say:

"I looked forward to this training and I was not disappointed, the contents were all key, strategic and very applicable. All sessions were very interesting, interactive and lively. I am also happy to meet other colleagues in the field of fleet management"

"I liked learning about the roles on who is a Coach, Consultant and Mentoring. The Setting Fleet Management Priorities game also helped me understand how short-term priorities are related to my long-term ambitions"
